

# LEARNING TECHNOLOGIES GROUP

[tiny.ucsf.edu/learningtech](http://tiny.ucsf.edu/learningtech)

## Who we are

Sean McClelland

Lead Learning  
Technologies Specialist

### Ask me about...

Presentation design and delivery, CLE Gradebook, UCSF Portfolio, audio and video equipment, multimedia production, social media, and Photoshop

Dylan Romero

Learning Technologies  
Specialist

### Ask me about...

iBooks Author, the Convergence blog, Quizzing, Lessons, Camtasia, web conferencing software, emerging technologies, and instructional design

Liz Taylor

Learning Technologies  
Specialist

### Ask me about...

Designing flipped classrooms, effective eLearning development, teaching with the CLE, graphic design, and Articulate Studio and Storyline

## What we do

### Tech Clinics

Day long workshops and collaboration activities on our most popular services

### eLearning support

Software training and support for online module design and development

### Digitization & scanning

What's old can be new again! Digitize media for safe keeping and maintenance

### CLE Administration

Supporting faculty, staff, and students using UCSF's learning management system

### Multimedia support

Equipment loan and instruction, audio and video editing tools

### Presentation coaching

Break the mold; learn to become a more dynamic and engaging presenter

## How to connect with us

### Our Website

🏢 Parnassus Library CL-243

🕒 8:30am - 5pm M-F

🐦 @UCSF\_CLE

## Tools we support

### eLearning design and development

popular open-source learning management system on which the CLE is based

Camtasia

flexible screen recording tool used to capture animated demos and tutorial videos

Articulate Studio

build quizzes, narrate and add engaging, interactive elements to your PowerPoint slides

iBooks Author

popular tool used to design and create multi-touch books for display on iPads

Articulate Storyline  
coming soon!

robust eLearning tool used to build interactive, scenario-based learning modules

ink2Go

simple to use screen annotation tool that can be used to create unique instructional videos

Kaltura  
coming soon!

video hosting and distribution platform used to manage and share videos

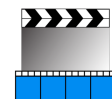

Final Cut Pro

powerful and professional-level post-production video timeline editing tool

Audacity

open-source multi-track audio editor, recorder, and converter available for all operating systems

MPEG Streamclip

video compression and conversion tool used to trim video and export to MP4 format

iMovie

user-friendly and popular video editing tool that is available on all Mac computers

CS6 Adobe Creative Suite

powerful suite of design tools used to create illustrations, edit images, and more

## Getting your project done

We offer an [equipment for loan program](#) free of charge to faculty, staff, and students working on UCSF-related projects. This includes audio/visual equipment, storage devices, and laptops. Please contact us for more information about our policies and to reserve a piece of equipment.

All of the software tools mentioned above are available in the Parnassus Library Tech Commons (CL-240). If you are looking for a quiet place to record and build learning modules, check out our eLearning Studio (CL-245). For more information and to reserve a workstation, visit: [tiny.ucsf.edu/reserveMM](http://tiny.ucsf.edu/reserveMM)

Camera, Mic, Lighting and Backdrop Kits

External Hard Drives

Articulate Laptop

Wacom Pen Tablet

Multimedia Laptop

## Explore new technologies

The field of learning technologies is constantly evolving. New software, tools, and apps are emerging all the time.

If you are experiencing a learning technology challenge in your course or think you want to try something innovative, reach out to us to let us help you explore how to get it done!

eLearning Studio, CL-245
