

The UCSF-Gladstone CFAR Implementation Science Working Group and the
Center for AIDS Prevention Studies (CAPS) present the
**Implementation Science and Quality Improvement
to Advance the Response to HIV**

June 8, 2017 - 8am-5pm
Mission Hall - Room 1400

SPEAKERS INCLUDE

Eric Goosby, MD

*United Nations Special Envoy on Tuberculosis
Director, Center for Implementation Sciences, UCSF Global Health Sciences*

Mary Dixon-Woods, FAcSS, FMedSci

*RAND Professor of Health Services Research
Cambridge Centre for Health Services Research*

Gareth Parry, PhD

*Senior Scientist, Institute for Healthcare Improvement
Clinical Assistant Professor, Harvard Medical School*

Bruce Agins, MD, MPH

*Director, HEALTHQUAL International
Medical Director, NYSDOH AIDS Institute*

Lisa Hirschhorn, MD, MPH

*Professor of Medical Social Sciences
Northwestern University Feinberg School of Medicine*

Edward Broughton, PhD

*Director of Research and Evaluation for the USAID ASSIST and Health Care
Improvement Projects*

Joseph Murungu, MBChB

*Former Deputy National HIV Care & Treatment Program Coordinator at the
Zimbabwe Ministry of Health*

Charles Holmes, MD, MPH

Associate Professor of Medicine, Johns Hopkins University

Susan Buchbinder, MD

*Director, BridgeHIV, San Francisco Department of Public Health
Clinical Professor of Medicine, UCSF*

Janet Myers, PhD, MPH

Professor of Medicine, CAPS/PRC, UCSF

Wayne Steward, PhD, MPH

Associate Professor of Medicine, CAPS/PRC, UCSF

Starley Shade, PhD

Associate Professor of Medicine, CAPS/PRC, UCSF

The field of HIV is fortunate to have a long list of biologically efficacious medical interventions to treat HIV infection and to prevent HIV acquisition. Ending the epidemic, however, depends on using these interventions efficiently, effectively, and with high quality in diverse real world settings.

Despite the apparent alignment of the goals of implementation science and quality improvement, these two discourses remain too often unconnected.

Sessions will include:

- **Quality Improvement in the Global AIDS Response: Gaps and Opportunities**
- **Methods for Measuring and Improving Quality in Global AIDS Programs**
- **Working Groups to Create Multifocal Conversation and Long-Term Collaborations**

Co-chaired by
Elvin Geng and
Eric Goosby
