

Hi all,

I have put together a set of information for you.

- One video "class" - about 1 hour
- 3 Word documents
- The PowerPoint the class is built on
- One PLoS article PDF with annotations

My suggestion for how to approach this mass? Scan the Word docs to get an idea what is included and take a look at the PLoS article.

Move on to the video as it will appear a bit less random after step one. Watch in short dollops to preserve your sanity and try out things as they are mentioned in the video.

We will have a session next week to answer questions and hopefully clarify this material.

Stay safe,

Whit (evans.whitaker@ucsf.edu)
