

the UCSF Department of Epidemiology and Biostatistics invites
you to attend

PhD Program

EPIDEMIOLOGY and Translational Science

Causal Inference Tools Seminar Series

Mon., February 10:
2 - 5:00 pm Location TBD

Maria Glymour, UCSF

"Preliminaries: stating causal questions with counterfactuals and using Directed Acyclic Graphs"

Mon., February 24:
2-5:00 pm Location TBD

Jay Kaufman, McGill University

"Mediation: modern tools to evaluating direct and indirect effects"

Mon., March 10:
1-5:00 pm Location TBD

Eric Tchetgen Tchetgen,

Harvard University

"Instrumental variable methods for confounding and selection bias in epidemiology"

Mon., March 31:
2-5:00 pm Location TBD

James Robins, Harvard University

"Handling time-varying confounders"

China Basin Landing - 185 Berry Street Lobby 5/ 5th Floor - San Francisco, CA 94107

Please RSVP Patty Hoppe @ phoppe@epi.ucsf.edu by FEB. 7th if you are interested in attending.

The workshops can stand alone, i.e., you are welcome to attend only those of interest to you. They will generally increase in expected background, and session 1 is intended to introduce terminology and concepts used in subsequent sessions. We will send readings to registered attendees.
