Sample GYN Report:

This is a 23 year old G3P0030 who is here for an annual exam. Pronouns are: she/her

Other problems that are current or relevant to today's visit are:

- Ovarian cyst
- Painful intercourse
- Vaginal irritation

Her **current sexual history** is: one steady partner, who she does not use condoms with, two other partners in past 3 months, she has used condoms with them. She has been having painful intercourse for the past two weeks, the pain is external, on the skin, not deep. She reports an itchy, generalized vaginal irritation for the past week. She has not used any new soaps or perfumed products.

- Her **birth control method** is :_____She is happy/unhappy with this method/she uses it consistently (or not)
- Her **menstrual hx** is WNL, LMP was _____
- **Pregnancy hx** is significant for three TABs in the past three years, most recent 6 mo. ago
- **GYN history** is significant for ovarian cyst diagnosed at SFGH three months ago, she has not gone back for follow-up.
- Her **medical history** is noncontributory
(ask your preceptor if she wants the family history, pregnancy history be routinely included? What about habits and lifestyle?)
- Her **pelvic exam** is:
(or if you haven't done the exam yet: "I plan to look for_____on the pelvic exam, I plan to do a wet mount and take cultures for GC/CT...")
 - All WNL or
 - Multiple vesicular lesions
 - Generalized erythema with thick curdy discharge

My **assessment** is: (all problems and/or differential prn)

- Vaginal candidiasis

- Ovarian cyst without follow-up
- Multiple TABs, needs effective contraceptive method:

My **plan** is:

- Diagnostic: ultrasound
- Therapeutic: OCP start, clotrimazole 1% vaginal cream 1 appl PV QHS x 7
- Education: Safer sex
- Follow-up/Referrals:
