

How manage notifications in Moodle.

1. Log into the CLE.
2. Go to “CLE Home”, and click on “Settings”. My “settings” is a tab located in the upper left-hand side of the screen.
3. Click on “My Profile Settings” and then “Messaging.”

The screenshot shows a web browser window displaying the Moodle course page for 'Introduction to Statistical Computing in Clinical Research (BIOSTAT 212)'. The browser's address bar shows the URL: <https://courses.ucsf.edu/course/view.php?id=396>. The page header includes navigation links like 'PUBMED@UCSF | GET CLE HELP' and a login status: 'You are logged in as Clair Dunne: Student (Return to my normal role)'. The main content area features a large graphic with the course title and a description: 'BIOSTAT 212 Summer 2013 (1 unit) Course Director: Mark J. Pletcher, MD, MPH Associate Professor, Department of Epidemiology and Biostatistics'. A red arrow points to the 'Messaging' option in the 'My profile settings' section of the 'Settings' menu on the left. The menu also includes 'Course administration', 'Switch role to...', and 'My profile settings'. The 'My profile settings' section includes 'Edit profile', 'Security keys', 'Messaging', and 'Blogs'. The 'Messaging' option is highlighted with a red arrow. The page also includes a 'Calendar' for August 2013, a 'Navigation' section with links to 'CLE Home', 'My home', and 'Site pages', and a 'Search forums' section. The 'Latest news' section lists recent updates from Mark Pletcher, and the 'Upcoming events' section lists a 'Workshop: Building Online Courses on the CLE with Moodle 2' on Tuesday, August 13, 9:00 AM.
